➔ *Multi-Currency Ready*

● Veg

● Non-Veg

● Egg

Product Classification

(Veg / Non-Veg / Egg)

Designed to simplify food labeling and improve customer trust.

- Tag food items as Veg, Non-Veg, or Egg-based
- Helps customers make quick dietary decisions
- Meets legal food labeling requirements in many regions
- Essential for restaurants and food delivery integrations

➔ *Clear menu labels. Better customer choices.*

QR Menu Platform

Turn every table or counter into a self-service ordering point

- Customers order & pay directly from their phone
- No app download required
- Works instantly on any smartphone
- Faster service, reduced dependency on staff

Scan. Order. Pay. Done.

➔ *Perfect for: • Restaurants • Cafés • Food courts*

Online Delivery Integration

Integrated with  SWIGGY &  zomato

Manage all online orders inside your POS - no manual entry, no errors.

- Orders auto-sync into JustBilling
- Update menu once, reflect everywhere
- Real-time order tracking
- Fewer manual errors, no double entry

Sell Exactly How Customers Want to Order

Designed for cafés, restaurants, and food brands.

- Size & add-on options (Small / Medium / Large, Hot / Iced)
 - Automatic pricing by variant
 - Better customer ordering experience
- Required for Swiggy & Zomato integration

 Sell exactly how customers want to order

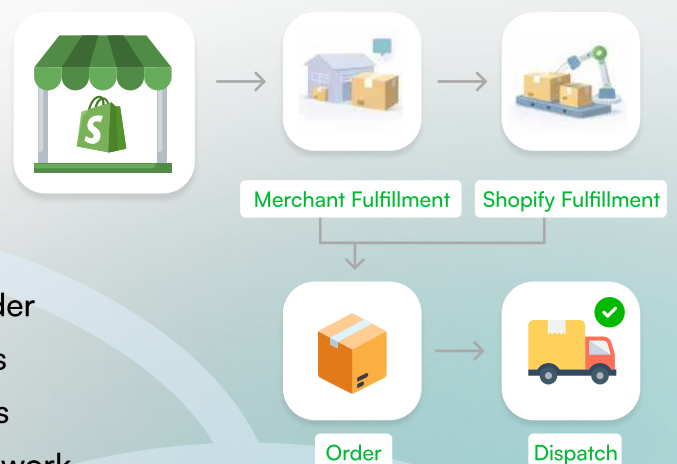

Shopify Integration

Choose How You Fulfill. Stay in Control.

Built to support modern e-commerce workflows.

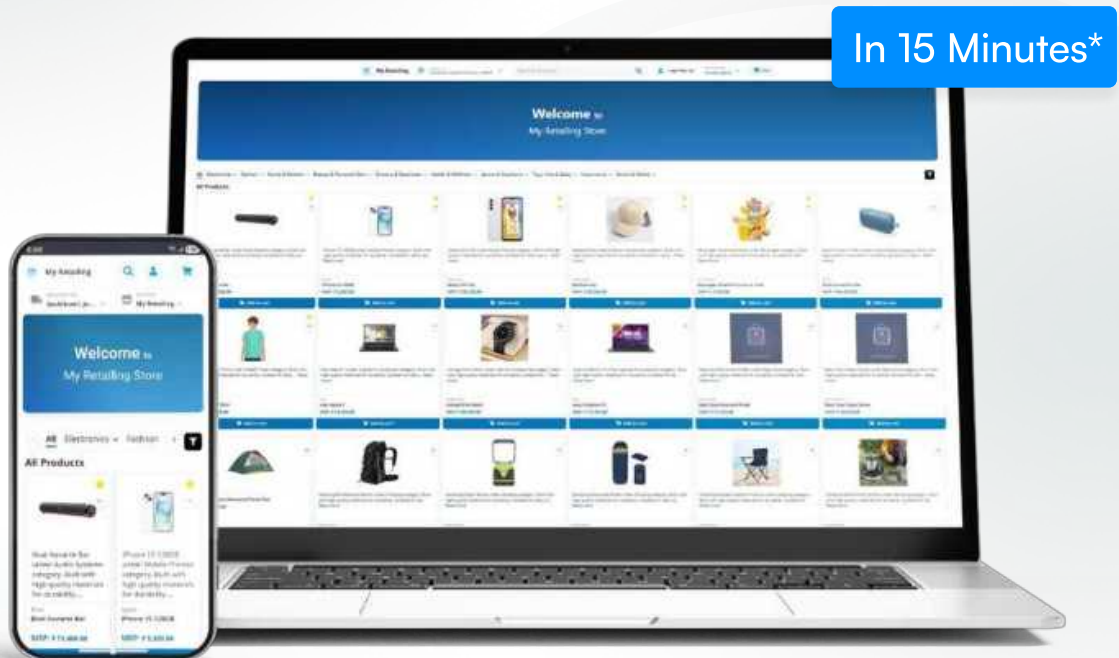

- Merchant fulfillment or Shopify fulfillment per order
- Choose the right option based on business needs
- Ideal for dropshipping and inventory-light models
- Automatic order status updates with less manual work
